Kaliningrad, 6 January 2012

Dear members,

As we start the New Year we are finally able to deliver member-only services.

To begin with, please find below our list of requests for immediate changes to current EU procurement rules. We circulated an earlier draft before Christmas, so this is a revised version incorporating comments from supporters. This time we are only sending this to paid-up members before finalizing it. We will send these demands to EuropeAid on 15th January, so please send us your comments, if any, by 13th January.

Very shortly we will bring on-line the members-only section of our website. We are just sorting out a last technical problem over password security and hope to go live within a few days. We also want to make this part of the website as user-friendly as possible, so please be patient if you are not totally satisfied at first, while we try to get everything perfected. At any rate, we will soon be able to host your private discussions and offer other facilities. We will write to you separately about that when we become operational.

Henry and Stephen.
